About Me

The SEO/GEO/AEO Specialist Behind These Results

I am a results-driven SEO/GEO/AEO Specialist with hands-on experience delivering measurable organic growth for businesses in competitive markets. With deep expertise spanning Technical SEO, On-Page Optimization, Off-Page Strategy, Local SEO, and AI-powered search optimization (GEO/AEO), I combine data-driven analysis with creative content strategy to drive sustainable traffic growth.

This portfolio documents my work for MindGee Technologies, a Bangalore-based Digital Marketing Agency, where I designed and executed a comprehensive SEO/GEO/AEO campaign across 8 months — achieving significant improvements across all key performance metrics, from search visibility and keyword rankings to Domain Authority, Core Web Vitals, and AI search presence.

Skill / Area	Details
Specialization	Full-Stack SEO Technical Audits Content Strategy GEO/AEO
Industry Focus	Digital Marketing, Local Businesses, B2B & B2C
Key Strength	Data-driven decision making with measurable ROI-focused SEO campaigns
Tools	SEMrush, Ahrefs, GSC, GA4, PageSpeed Insights, Screaming Frog, Moz, Otterly.ai
AI / GEO SEO	Optimizing for ChatGPT, Gemini, Perplexity & AI-powered search engines
Technical SEO	Site audits, crawl optimization, structured data, HTTPS, sitemaps
On-Page	Title tags, meta descriptions, headings, keyword density, CTAs

Analytics	GA4 & GSC performance tracking, exploration reports, CTR analysis

SEMrush Position Tracking confirms consistent, measurable growth in organic keyword rankings across all tiers over the 8-month campaign period (October 2025 – May 2026).

- **Top 10 keyword count doubled**— rising from 35 to 70+ keywords (+100%). This reflects improved on-page optimisation, content authority, and internal linking strategy targeting commercially relevant terms.
- **Total ranking keyword volume grew from 296 → 397**— a +34% expansion in organic footprint, meaning MindGee now ranks for significantly more search queries than at campaign start.
- **Average position improved from 50.7 → 29.3**— a +42% improvement, moving the domain from the lower half of Page 5 toward Page 3 on average, with many target keywords now on Pages 1–2.
- **Visibility Score rose from 23.36% → 26.76%**— a +3.4% gain in SEMrush's weighted SERP visibility index.

What Drove These Rankings

- Targeted keyword clustering around Bangalore digital marketing, Electronic City SEO, and local service intent queries
- Title tag rewrites incorporating primary keywords + 2026 freshness signals across all service pages
- Content expansion on high-opportunity pages with thin or missing keyword coverage
- Internal linking restructure to consolidate topical authority across service and blog pages
- Schema markup (FAQ, BreadcrumbList, LocalBusiness) improving rich result eligibility for target queries
